2008-09 WORK COMP RATES UP SLIGHTLY

Rate Changes Vary Widely By Class; Carriers Offering More Credits

(Our 11th ANNUAL Workers' Compensation Rate Preview Published on Reverse)

Rates Up Average of 4.25% for Selected Construction Classes

Many Arizona construction firms will see increased Workers Compensation rates for their field personnel effective after October 1, 2008. Rate increases, shown for selected construction-related classifications (right panel) follow an upward trend first observed in Arizona in 2005 - following a decade of rate reductions.

From both a historical and relative perspective, Workers Compensation costs in Arizona continue to be among the lowest in the country. In today's insurance climate, more private carriers, like those through Hill & Usher, offer policies with significant discounts below manual rates (shown on reverse side).
